

# EMBEDDING ORAL HISTORY INTO MIND-BRAIN HEALTH: AN UNTAPPED RESOURCE?

PROFESSOR SLOAN MAHONE, OXFORD UNIVERSITY

- THURS 10<sup>TH</sup> JULY
- TALK 5-6PM
- DRINKS AND SNACKS 6-7PM
- NEUROSCIENCE INSTITUTE  
AUDITORIUM
- (IN-PERSON ONLY)

Prof Mahone is an historian of medicine and psychiatry, specializing in the intersection of these fields with colonialism and photography. Having started out in the USA Peace Corps in Zaire, she has worked in many parts of Africa on several research projects in clinical neurology. Her current work straddles the Humanities and Global Health, specifically how oral history methodologies might be embedded into medicine and 'Mind-Brain Health.' She is co-founder and Oral History Director of the newly launched 'Centre for Global Epilepsy' at Wolfson College and Oxford University.
