# BRAINS & BYTES

**THE FUTURE OF NEUROSURGERY:**  
EXPLORING THE CUTTING EDGE OF HUMAN INTELLIGENCE &  
DIGITAL INNOVATION THROUGH BRAIN COMPUTER INTERFACES

## SPEAKER

**Prof Tim Denison**

Royal Academy of Engineering Chair at Oxford University, co-founder of Amber Therapeutics. Pioneers brain engineering & neurotechnology, with over 100 U.S patents.

## *BRAIN-COMPUTER INTERFACE*

*Talk & Panel Discussion*

### PANELLIST

A/Prof Nico Enslin  
Neurosurgeon

### PANELLIST

Dr Jesse Bulabula  
Neurosurgeon

### PANELLIST

Prof Graham Fieggen  
Neurosurgeon

**Neuroscience Institute Auditorium**

**02 October 2025, Thursday**

**18:00 for 18:30 - 20:00**

**Snacks will be served**
