

# Seminar: Inhibition in the central nervous system

Theme: Global inhibitory cascades in the CNS

The Inhibition Gordon Research Seminar and Conference are an international seminar and conference covering theoretical, computational and experimental aspects of inhibition from micro to macro scales!

5-6th of July 2025  
Sunday River, Maine, US

*a blend of science, community and discovery!  
Mixer dinners, mentorship lunch and scientific workshops!*

# InhibitionGRC

Topics:

Subcortical GABAergic neurons  
Modulatory impacts on inhibition  
Computational Insights into inhibition

More Information & Application:

Organizers: Wricha Mishra & Nicole Vissers

**Do you want to present  
your research at an  
international conference?**

We are looking for speakers & discussion leaders!!

6-11th of July Associated  
Conference on Inhibition:
